27th to 31st March 2023 (1:00 PM to 4:00 PM on first 4 days) (1:00 PM to 5:30 PM on last day)

Registration on first come first serve basis

PREAMBLE

Architecture being a multidisciplinary profession of amalgamated inventive and Knowledge, requires that we work to promote critical thinking among the skilled. Architectural research entails an examination of the interconnectedness of disciplines, including society, culture, history, demographics, and so forth. This enormous amount of data supports an organised approach to data collection, analysis, and conclusion when creating documentation. The Faculty Development Program on Research Writing and Publication in Architecture and Planning intends to investigate the many procedures and approaches used by academicians, practitioners, and research scholars during the various stages of Architectural publications. By studying and identifying the process for analysing from the research gaps to publish the manuscripts, this programme will focus on types and stages followed in architectural research writing.

Researchers will be guided by practical advice on research methods and tools as they frame and publish their submissions in reputable journals and publications.

TAKEAWAY: Participants will comprehend the methods for doing architectural research and the publication process by being able to apply the knowledge they learn to their academic and professional research.

Limited seats only

First 35 participants will get confirmation email from organization
