Rethinking Building Byelaws & Planning Regulations

05-Day Online Faculty Development Program [FDP]

Date: 23rd – 27th January 2023 | Time: 1:00 PM – 4:00 PM

Registration on first come first serve basis

About the FDP:

Building Byelaws play an important role in building design and its execution. Environmental causes, social aspects and economic processes have caused a significant shift in architectural thinking during the past few decades. It becomes important to impart the related knowledge regarding building byelaws and their sustenance over the time.

This program is an effort to provide an in-depth understanding of emerging scenarios and concepts related to building design and urban development. This FDP shall offer a platform to discuss the imperatives of building byelaws and regulations with respect to role of Urban Local Bodies paving way to crop solutions and guidelines particularly in Indian context.

The participants will be able to comprehend the change in thought process for a more optimum use of land and development under the impact of changing environmental, social, economic and political scenarios.

Take-aways:

- Impart knowledge about contextual understanding, sustainability, inclusivity, safety and security, functionality, cost-effectiveness, and aesthetic appeal within the regulatory realm
- Allow participants to address issues within the field, to encourage high-quality architecture, sustainable development of the environment, and urban design, celebrating cultural and heritage conservation
- Enable participants in delivering quality, managing risks, and nurturing innovation to allow for maximized public interest of investment for the built environment

Participants:

Academicians, Ph.D. Scholars, Policy makers from the Department of Town Planning, Development Authorities, Professionals from the field of Building construction & allied fields.
