

COUNCIL OF ARCHITECTURE

ONLINE TRAINING PROGRAM

In Collaboration with

School of Architecture, Urban Development and Planning,

Symbiosis Skills & Professional University, Kiwale, Pune

ARCHITECTURAL PEDAGOGY AS BRIDGE BETWEEN CONSTRUCTION INDUSTRY SKILLS AND CONVENTIONAL THEORY

The Programme Is Intended For : Teachers & Young Professionals Keen To Learn About Construction Industry Skills Requirements

TTP Dates: 19th -22nd July 2022

Time: 10.30 am to 3.45 pm

ABOUT THE PROGRAM

Skills and knowledge are the driving forces of economic growth and social development for any country. Presently, the country faces a demand – supply mismatch, as the economy needs more skilled workforce than that is available. In the higher education sphere, knowledge and skills are required for diverse forms of employment in the sector of construction, health care manufacturing and other services.

The National Skills Qualifications Framework (NSQF) is a competency-based framework that organizes qualifications according to a series of knowledge, skills and aptitude. NSQF lists down what an individual performing that task should know and also are able to do. Just as each job role may require the performance of a number of tasks, the combination of NOSs (National Occupational Standards) corresponding to these tasks form the Qualification Pack (QP) for that job role.

It defines professional skills are what a learner should be able to do and, Core skills refer to basic skills involving dexterity and use of IT skills, methods, materials, tools and instruments used to perform the job. The objective of the training programme is to deliver selected industry-ready professional skills required for architecture and construction industry, which can be applied directly upon completion of the course. This training programme will try to bridge the gap between construction industry skills requirements and current Architectural pedagogy.

KEY TAKEAWAYS

- Industry update in Architecture technology
- Architecture pedagogy for industry skills
- Skill enhancement in the New age technology

SPEAKERS

Mr. Dinesh Hipparkar
Practising Architect & Professor, SSPU,Pune
