**Online Coordinator**  
**Prof. Latika Gawali,**  
Assistant Professor,  
BKPS CoA, Pune.

## ELECTIVES AS A TOOL OF TRANSCENDING DISCIPLINES

The Council of Architecture vide its Gazetted model curriculum and also the NEP 2020 focus on interdisciplinary and multidisciplinary learning in higher education. Electives hence carry immense value to the core architecture education by bringing the essence of different disciplines as part of curriculum. Students opt for elective courses as per their choice as offered by institutes as an additional learning to the core architecture subjects. These electives might give them an understanding of their interest to pursue masters or take up the subject ahead in practice. They broaden their creative allied interests as well as carry the credits for electives to pursue allied knowledge domains.

The program will give guidelines on how to conduct electives and define the syllabus for electives in an innovative manner which will create interest in the student to pursue the subject. The program outcome will lead to on how to connect the learning from the elective with core Architecture and role of a teacher or guide while conducting the elective.
