

# Council of Architecture - Training & Research Centre, Pune

Faculty Development Program (Online) organised by

**NITTE SCHOOL OF  
ARCHITECTURE, PLANNING & DESIGN**  
BENGALURU - 560064

**Convenor**  
**Prof. Jayashree Deshpande**  
Director,  
COA-TRC, Pune

**Course Coordinator**  
**Dr. KS Anantha Krishna**  
Professor Emeritus  
NitteSAPD, Bengaluru

**Online Coordinator**  
**Ar. B Suptha Rao**  
Assistant Professor  
NitteSAPD, Bengaluru  
+91 9886776349

**Online Coordinator**  
**Ar. Prashansa Srivastava**  
Assistant Professor, IGBC-AP,GEM-CP  
NitteSAPD, Bengaluru  
+91 99199 66013

## Integrated Design Strategies for Large and Complex Buildings: Focus on IT Parks

August 5 To August 9  
2024 2024

TIMING OF PROGRAM: 2:30 PM TO 5:45 PM

### Preamble

It is customary in Architecture Schools across India, to introduce large and complex buildings as studio projects in the pre-final year. Such buildings involve high levels of complexity in terms of function, structure, services, security, computing systems, etc. Examples of such buildings include hospitals, star hotels, industrial structures, tech parks, IT parks, etc. IT parks have become an important building type in metropolitan and class I cities in India. The IT parks serve to provide a congenial physical environment to the localization of tech-related companies. The components of IT parks include office space, research laboratories, conference halls and meeting rooms. The infrastructure requirements include power systems, HVAC systems, security devices and computing devices including servers, storage, computers and laptops. The ancillary facilities may include residential complexes for the work force - villas and apartments, with commercial and convenience establishments like clubs, gyms and resorts for comfortable living. These amenities help in attracting investors and skilled work force both of which are essential for driving the IT parks towards their full potential which include the following:

- the advancement of technology,
- the attraction of investment,
- the establishment of companies,
- job creation, and
- the development of the area and surroundings.

The faculty guiding such projects will benefit from the hands on experience of architects who have designed and executed such large and complex buildings. This online faculty development program will be attended by participants who are mostly faculty members of Architecture Schools across India. The program is envisaged for a duration of five days, with two sessions of 90 minutes each per day (including Q & A), involving 10 resource persons.

### Key take-aways for participants:

Inputs on the layout, services, design and architectural vocabulary of large and complex buildings, especially IT parks, from architects with hands-on experience. These inputs will enable the faculty members to guide such studio projects with more authority.

### Notes:

- Teachers/ architects who wish to register for the training program either under Collaborative Training Program (CTP 2022-23) or as independent individuals may do so by filling up the Google form available on the given link.
- To confirm registration, kindly upload proof of payment towards the registration fees/nomination form on college letterhead before submitting the registration form.
- Link to join the program will be shared one day prior to the program
- This program is not for students.
- E-Certificate of said training program shall be sent via email on registered email id of participants, after successful completion of training program by participant i.e. attending all sessions and submitting all assignments, EOPT and feedback form of training program.

Date

Time Slot 1  
2:30 PM - 4:00 PM

Time Slot 2  
4:15 PM - 5:45 PM

MONDAY

5

August

**Ar. Pramod Balakrishnan**  
Edifice Architects &  
Interior Designers,  
Chennai

**Prof. Sairam Dasari**  
School of Planning  
& Architecture,  
New Delhi

TUESDAY

6

August

**Ar. Bhavana Sethi**
