

2nd Jan to 6th Jan 2023 | Time: 10:30 AM to 1:50 PM**Preamble:**

The Online Training Programme has been conceptualised based on the pressing concern of untapped residual spaces in cities - The Urban Voids. These spaces often tend to become used, abused, and neglected pockets since they are inevitably disregarded in the CDPs (city development plan).

The 5-day Online Training Program intends to bring together academicians, practising professionals of Architecture, Urbanism, Design and connected disciplines in an active sharing of knowledge and perspectives within the said theme. This training program aims to explore ideas and execution frameworks for revitalising urban voids with the participants.

The larger objective is to empower Architectural schools and academicians to lead local initiatives by reimagining, redesigning and reinforcing change in urban voids. The intention of the workshop is to create a ripple effect across the country to trigger a positive change in the urban realm. This change will be documented and projected on the national platform ‘COA Social’.

Registration Details:

Registration Fees for Professionals and academicians: **Rs.1,500/-**
(Rupees One thousand five hundred only).
