Subject: Practical Training by Students of B.Arch. Course for completion of 5-year B.Arch. Degree Course – reg.

Dear Colleagues,

As you are aware that the students of Bachelor of Architecture Degree Course are required to undergo practical training under a registered Architect for completion of their 5-year Degree Course.

The attention of the Council has been drawn that in view of nation-wide lockdown due to spread of pandemic of Corona Virus (Covid 19) students are not able to complete their practical training.

In order to enable the students to complete their practical training, it is requested that such trainee students should also be considered for work from home method, so that they are able to complete their training period. All Architects who are having trainee students are requested to kindly take a note of this and continue guiding the students and help complete their training. This will help in their assessment.

I request all Architects and Architectural Institutions to take this critical situation as a challenge and help the students by issuing them certificates and drawings so that they are able to complete their training within prescribed time period and do not suffer because of lockdown.

Warm regards,

HABEEB KHAN
