

“LEARNINGS FROM THE VERNACULAR”

Education and Research

8th January 2021 at 11:00 AM

The webinar aims to explore how vernacular architecture is influencing 'contemporary design practices' and also, on the other hand, the influence of contemporary architecture on the 'vernacular'. The webinar will be a two-part series where the first webinar will focus on "Why Vernacular Architecture has a role in Education" and needs to be a part of the core curriculum in Architecture. Also it would discuss the pedagogical approach in imparting the values of vernacular architecture to aspiring students and faculty. The second webinar will discuss the Relevance of Vernacular Architecture in Contemporary Practice - possibilities and challenges.
