Ar.Naresh Shah

The seminar/workshop from “**Pre-design to Design Concept**” is the second phase of the mission to bring the awareness of “**Pre-Design**” to the architectural community in India. This effort started by Ar. Naresh Shah has culminated in the publication of a book on predesign by COA and its inclusion in the FTP program.

As a starting point of this seminar, familiarity with the predesign theory and process by the participants is required. This seminar/workshop is a long awaited follow-up to the predesign namely, proceeding with design based on predesign theory. The workshop starts with the given program and goes through the design process in a step by step process, combining theory, presentations, discussions, field visits, imagination, design revision in workshop mode, followed by design jury.

This seminar/workshop will give the faculty hands on exposure to the design activity in a systematic and “teachable” manner. It is hoped that this concept of “**Pre-design as a prelude to Design**” will be conveyed to the students of their respective institute and foster a spirit of sharing this experience with the architectural community at large.
