# Startup Studio: Fostering an Entrepreneurial Culture in the Institutional Ecosystem

### OVERVIEW

This Programme focuses on fostering an entrepreneurial culture within academic institutions by introducing innovation, startup ecosystems, and design thinking in architecture and design education. The programme encourages faculty members and young professionals (Architects) to explore entrepreneurial opportunities, interdisciplinary collaboration, and industry-oriented learning approaches. It aims to bridge the gap between academic knowledge and real-world practice by promoting innovation-driven teaching, mentorship, and startup-oriented thinking within the institutional ecosystem.

### OBJECTIVES

- Introduce to startup ecosystems and entrepreneurial thinking
- Encourage innovation and design-led problem solving
- Equip faculty and young professionals with mentorship skills
- Promote entrepreneurship within academic and professional practice
