

Dear Sir/Ma'am,
Greetings from GRIHA Council!

COA and GRIHA Council, in collaboration with USG Knauf is organizing a 2-day training workshop for the practicing architects focusing on Drywall construction techniques including a manufacturing plant visit at USG Knauf Khushkhera facility.

Date: 29th and 30th November 2022

Time: 10:00 AM onwards

Location:

The workshop will include the following:

Day 1 – At India Habitat Centre

- USG Knauf company introduction and range of products.
- Introduction to GRIHA and GRIHA Product Catalogue.
- Technical session on Drywall construction technique.
- Live demonstration of production installation.

Day 2 – At USG Knauf Khushkhera plant facility
(Travel arrangement will be made from India Habitat Centre)

The training session aims at sensitizing the professionals working in the field of modern building construction, including budding architects to understand dry construction techniques using Gypsum as a miracle material.

Hurry up!! Register today itself at:

Registration link: <http://events.teriin.org/terievent/registration/regstep1/156>

Note:

- A confirmation mail will be sent from GRIHA Council, acknowledging the booking of a seat. Please carry the copy of the mail on the day of the session.
- Please use discount code “COAGRIHA” to avail special discount on training fee offered exclusively for COA registered architects.
- Fee once paid is non-refundable.
- COA architect registration is mandatory to avail special discount.
